Re: Property Disposal

The Cortland Police Department is seeking permission to dispose of some old equipment and found bicycles.

We have seventeen (17) bicycles we have been storing. Some of these bicycles we have been storing for at least three years, all of them we have stored in excess of six months. We have taken every step to make sure these bicycles have not been reported stolen. At this point, we would like to properly dispose of them to clear the space.

We are also seeking permission to dispose of eight (8) obsolete in-squad video systems. It is my understanding these items were provided to us from another department. The cameras were made by AMR DIGITAL CORPORATION. I have conducted some research and the company that manufactured the equipment seems to no longer be in existence. The serial numbers for the camera systems are listed below. Each system consists of a dash mounted camera and a recording unit. It is unknown if the cameras work, we have no supporting software, and if/when there is a malfunction, there is no manufacturer to reach out to for service.

Please consider our request, should there are any questions, please reach out to me or Chief Dargis.
